**Frederick Health Opens New Emmitsburg Facility**

**Frederick, MD – August 1, 2022** Frederick Health is pleased to announce the opening of a new, state-of-the-art healthcare facility located in Emmitsburg, Maryland. This facility was built on land donated by Mount St. Mary's University and will provide award-winning local care to residents of the area as well as students and faculty from the Mount.

This facility will offer a wide range of healthcare services focusing on prevention, treatment, and the overall wellness of the community. By constructing this facility, Frederick Health continues to support its mission to positively impact the well-being of every individual in the community.

"Frederick Health Emmitsburg, the 23rd location in our network, will offer vital and accessible health care services," said Tom Kleinhanzl, President & CEO of Frederick Health. "This location is a testament to our dedication to residents of Frederick County and beyond."

The facility, which broke ground in October 2021, is scheduled to open to the public in August of 2022. A ribbon cutting ceremony will be held at 9 AM on August 16, and members of the media are invited to attend. Please contact Josh Faust, Communications & Public Relations Specialist with Frederick Health, if you wish to attend.

"This location will bring award-winning care to residents of the northern part of Frederick County as well as the students and staff at the Mount. We thank Mount St. Mary's University for their cooperation and commitment to improving our community," added Kleinhanzl.

Frederick Health was pleased to work with Mount St. Mary's University, an institution with nearly 215 years of history in the Frederick community. As part of their agreement, Mount St. Mary's University graciously donated the land upon which the facility was constructed. This facility, which will be operated by Frederick Health, will also serve as the university's new student health center.

"Mount St. Mary's University is proud to now have state-of-the-art student health care on campus and grateful for our partnership with Frederick Health, the area's leading healthcare provider," said Timothy E. Trainor, Ph.D., President of Mount St. Mary's University. "As we have watched the rapid construction of Frederick Health Emmitsburg, anticipation has been building for the fulfillment of our joint commitment to enhanced health and wellness services for students and the local community."

That dedication to the community is important to both Frederick Health and Mount St. Mary's University.

"This is a great day for the university and surrounding communities," stated Trainor.

### **About Mount St. Mary's University**

Mount St. Mary's University is a private, liberal arts, Catholic university in the Catoctin Mountains near historic Emmitsburg, Maryland, with a satellite campus in Frederick, Maryland's second largest city. The university offers more than 80 majors, minors, concentrations, and special programs for traditional undergraduate students, and more than 20 adult undergraduate and graduate level programs as well as 24 NCAA Division I athletic teams. Founded in 1808, Mount St. Mary's includes Mount St. Mary's Seminary, the second oldest in the United States, and the National Shrine Grotto of Our Lady of Lourdes, an idyllic shrine for spiritual reflection located on the hill above the university.
