### **Frederick Health Medical Group Expands to Offer Specialty Brain & Spine Care**

**Frederick, MD – August 31, 2022** Frederick Health is pleased to announce that on September 1, 2022, Dr. Ravi Yalamanchili will be joining the Frederick Health Medical Group as a provider, adding Brain & Spine care to the growing list of medical specialties provided by Frederick Health Medical Group. Dr. Yalamanchili is an expert in brain and spine surgery and care. He brings over 27 years of experience treating patients in the Frederick community.

“I am excited to bring neurosurgical services under the Frederick Health umbrella to our community,” said Dr. Yalamanchili

Dr. Yalamanchili’s practice routinely sees patients for disorders of the brain, spine and peripheral nerves including neck pain, lower back pain, ulnar nerve compression, carpal tunnel syndrome, sciatica, pinched nerves in the neck, sports injuries, chronic pain, and vertebral compression fractures. As the area’s premier provider of these services, Frederick Health Medical Group is thrilled to now offer Dr. Yalamanchili’s expertise to a wider network of patients.

“Frederick Health is thrilled to welcome Dr. Yalamanchili into our expanding scope of services,” said Don Schilling, Vice President of Ambulatory Services with Frederick Health.

Dr. Yalamanchili will continue to see existing patients at 141 Thomas Johnson Drive, Frederick, Maryland 21702 and is accepting new patients. Frederick Health Medical Group is planning to expand its Brain & Spine services as additional providers join the practice. By incorporating yet another medical specialty into its service portfolio, Frederick Health continues to expand and improve access to healthcare for all members of the community, regardless of where they are on their individual health journey.

“Dr. Yalamanchili is among the top practices in the nation for patient outcomes and satisfaction. This puts him well above several regional competitors, making this a real win for Frederick Health patients,” continued Schilling.
